## **U-value calculation**

by BRE U-value Calculator version 2.03 Printed on 02 Mar 2018 at 13:16

Element type: Wall - Structural insulated panel

Calculation Method: BS EN ISO 6946

## Wall Type 2 - 144mm SIP

| Layer                         | d (mm) | <u>λ layer</u> | <u>λ bridge</u> | <b>Fraction</b> | R layer | R bridge | <u>Description</u>                    |
|-------------------------------|--------|----------------|-----------------|-----------------|---------|----------|---------------------------------------|
|                               |        |                |                 |                 | 0.130   |          | Rsi                                   |
| 1                             | 12.5   | 0.160          |                 |                 | 0.078   |          | Vapourcheck plasterboard              |
| 2                             |        |                |                 |                 |         |          | Protect VC Foil Ultra Insulating AVCL |
| Membrane                      |        |                |                 |                 |         |          |                                       |

| 7                             |        |                |                 |                 |         |          | Protect TF200 Breather Membrane       |
| 8                             | 12     | 0.210          |                 |                 | 0.057   |          | Magnesium Oxide Board                 |
| 9                             | 5      | 0.570          |                 |                 | 0.009   |          | Render                                |
|                               |        |                |                 |                 | 0.040   |          | Rse                                   |
| 196 mm (total wall thickness) |        |                |                 |                 | 5.330   |          |                                       |

<sup>1</sup>Specified thermal resistance

Total resistance: Upper limit: 5.245 Lower limit: 5.087 Ratio: 1.031 Average: 5.166 m<sup>2</sup>K/W

U-value 0.194

U-value (rounded) 0.19 W/m<sup>2</sup>K

The U value result has been determined as follows:

## **Bridging:**

A thermal bridge percentage for the timber studs of 12.5% has been used in accordance with BR 443: 2006 Conventions for U values (section 4.5.1 (ii)). Correction level:

A correction level of 0 has been used in accordance with Table F1 of BS EN ISO 6946: 2017 Building components and Building elements - Thermal transmittance - Calculation methods.
